

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Tendercapital Secular Euro (the Fund), a sub-fund of TENDERCAPITAL FUNDS plc (the Company) GBP Institutional Accumulating 2 Share Class (ISIN IE00BPRCH918)

Objectives and Investment Policy

Objectives and Investment Policy	F
Objectives and investment Policy The Fund aims to produce positive returns with medium/high volatility (range and frequency of price movement).The main investment strategy of the Fund is to seek to identify and invest in companies that could benefit from trends, such as humanity (demographic trends, population growth/decline, immigration/emigration), low, mid, high business production cycles, economic developments (technological enhancements, internet, cloud computing) or country specific (gross domestic product growth rates). However, other investments could be made depending on the Investment Manager's assessment of the market.The Fund may invest up to 100% of its net asset value (NAV) in equities and equity related securities whose currency unit is Euro, across all industries and all sizes of companies, mainly be listed on a Regulated Market (as defined in the Prospectus) in Europe.These investments could include shares, options (a derivative that gives the holder the right to buy or sell the underlying security but not the obligation), index option strategies, convertible bonds (securities that give the holder the right to convert the bond into shares), warrants (securities that give the holder the right to buy newly created shares at a fixed price during a set period), listed depository receipts (securities issued by banks evidencing their ownership of	From time to time, the Fund may hold up to 100% of its NAV in liquid assets, such as money market instruments (including certificates of deposit, commercial paper (type of bond with a short maturity), cash deposits, fixed income securities (such as notes, preferred securities, debentures, convertible and non- convertible bonds) issued or guaranteed by governments, municipalities, agencies, supranational or corporates. Such investment could be made, in particular, where the Investment Manager considers that the markets for these securities look favourable compared to equity securities. No more than 30% of the NAV shall be directly invested in bonds which, at the time of their most recent purchase, were not rated investment grade by at least one credit rating agency approved by the Company or which are deemed by the Investment Manager to have an implied rating of investment grade, for instance by reference to other bonds issued by the issuer of the relevant bond. The credit rating agencies currently approved for such purposes are Standard and Poors, Moody's, Fitch and DBRS. The Fund may also use financial derivative instruments (FDI) for investment purposes and/or for hedging (protect against/ net off) exposure on investments. These FDI may include futures, swaps, options, contracts for difference, spot and forward currency contracts, which may be exchange traded or over the counter. The Fund may use reverse repurchase agreements for efficient portfolio management.
Up to 10% of the NAV could be invested in (i) the securities described above but which may be listed or traded on other Regulated Markets and may have a currency unit other than Euro; and/or (ii) collective investment schemes, including exchange traded funds.	London. Any net income the Fund generates will be reinvested and reflected in the value of your Shares. For full investment objectives and policy details please refer to the prospectus of the Company (the Prospectus) which is available at https://tendercapital.com/
