

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

**Tendercapital Secular Euro (the Fund), a sub-fund of TENDERCAPITAL FUNDS plc (the Company)
 GBP Institutional Accumulating 2 Share Class (ISIN IE00BPRCH918)**

Objectives and Investment Policy

The Fund aims to produce positive returns with medium/high volatility (range and frequency of price movement).
 The Fund is actively managed and is not managed in reference to a benchmark.

The Investment Manager has discretion over the composition of the Fund's portfolio, subject to the stated investment objectives and policies.

The main investment strategy of the Fund is to seek to identify and invest in companies that could benefit from trends, such as humanity (demographic trends, population growth/decline, immigration/emigration), low, mid, high business production cycles, economic developments (technological enhancements, internet, cloud computing) or country specific (gross domestic product growth rates). However, other investments could be made depending on the Investment Manager's assessment of the market.

The Fund may invest up to 100% of its net asset value (**NAV**) in equities and equity related securities whose currency unit is Euro, across all industries and all sizes of companies, mainly be listed on a Regulated Market (as defined in the Prospectus) in Europe.

These investments could include shares, options (a derivative that gives the holder the right to buy or sell the underlying security but not the obligation), index option strategies, convertible bonds (securities that give the holder the right to convert the bond into shares), warrants (securities that give the holder the right to buy newly created shares at a fixed price during a set period), listed depository receipts (securities issued by banks evidencing their ownership of specific foreign securities).

Up to 10% of the NAV could be invested in (i) the securities described above but which may be listed or traded on other Regulated Markets and may have a currency unit other than Euro; and/or (ii) collective investment schemes, including exchange traded funds.

From time to time, the Fund may hold up to 100% of its NAV in liquid assets, such as money market instruments (including certificates of deposit, commercial paper (type of bond with a short maturity), cash deposits, fixed income securities (such as notes, preferred securities, debentures, convertible and non-convertible bonds) issued or guaranteed by governments, municipalities, agencies, supranational or corporates. Such investment could be made, in particular, where the Investment Manager considers that the markets for these securities look favourable compared to equity securities.

No more than 30% of the NAV shall be directly invested in bonds which, at the time of their most recent purchase, were not rated investment grade by at least one credit rating agency approved by the Company or which are deemed by the Investment Manager to have an implied rating of investment grade, for instance by reference to other bonds issued by the issuer of the relevant bond. The credit rating agencies currently approved for such purposes are Standard and Poor's, Moody's, Fitch and DBRS.

The Fund may also use financial derivative instruments (**FDI**) for investment purposes and/or for hedging (protect against/ net off) exposure on investments. These FDI may include futures, swaps, options, contracts for difference, spot and forward currency contracts, which may be exchange traded or over the counter. The Fund may use reverse repurchase agreements for efficient portfolio management.

You can buy or sell Shares on every Business Day in Dublin and London. Any net income the Fund generates will be reinvested and reflected in the value of your Shares.

For full investment objectives and policy details please refer to the prospectus of the Company (the Prospectus) which is available at www.tendercapital.com

Risk and Reward Profile

Lower risk ← Higher risk
 Typically lower rewards Typically higher rewards

- Historical data used in calculating the above indicator may not be a reliable indication of future performance.
- The category shown is not guaranteed and may shift over time.
- The lowest category does not mean risk free.
- The indicator above indicates where this Share Class ranks in terms of risk and return. As this Share Class does not have a five year risk and reward track record, the risk indicator has been calculated based on studies of how such investments have performed in the past.
- The risk category for this Share Class ranks 6 based on the range and frequency of price movements (volatility) of the investments of the Fund.

The following are risks materially relevant that are not captured by the SRRRI indicator:

- Investors should note the difference between the nature of a deposit and the nature of an investment in the Fund, in particular the risk that the principal invested in the Fund is capable of fluctuation and Shareholders may not have all of their principal returned to them on redemption.
- The Fund may enter into transactions in over-the-counter markets, which will expose the Fund to the credit risk of counterparties and their ability to satisfy the terms of such contracts.
- Since many FDI have a leverage component, adverse changes in the value or level of the underlying asset, can result in a loss substantially.

Please refer to the Risk Factors section of the Prospectus for details of relevant risks.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	Up to 3%
Exit Charge	Up to 3%
This is the maximum that might be taken out of your money before it is invested in the case of the Entry Charge and before the proceeds of your investment are paid out in the case of the Exit Charge.	
Charges taken from the fund over a year	
Ongoing charges	2.03%
Charges taken from the fund under certain specific conditions	
Performance fee	No performance fee will be payable in respect of the Fund.

The **entry** and **exit charges** shown are maximum figures. An exchange charge of up to 3% may be charged if you exchange your Shares for Shares in another Class. In some cases you might pay less – you can find this out from your financial adviser or distributor.

The **ongoing charges** figure is based on expenses for the year ending 31 December 2020. This figure may vary from year to year. It excludes:

- Performance fees;
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment scheme.

For more information about charges, please refer to the Fees and Expenses section of the Prospectus and the Supplement for the Fund, which is available at www.tendercapital.com

Past Performance

Tendercapital Secular Euro

The Fund was approved by the Central Bank of Ireland on 19 February 2013.

As the share class is active but has no subscribers at the date of this document, the data are not sufficient to provide useful indications of past performance to investors.
