earthpressnews 21 October 2023

(Finance) – **Moreno Zani, president of Tendercapital**, among the most active independent international players in the asset management sector, received the title of Knight of the Order of Merit of the Italian Republic, during the award ceremony at the “Giuseppe Verdi” Conservatory of Music in Milan. The award was presented by **prefect of Milan, Renato Saccone**.

“I am honored to receive this highly prestigious institutional recognition – he declared **or Zani** –. The savings of Italian families play a fundamental role in the country’s restart. New business support tools are needed to encourage a sustainable growth rate and mobilize savings towards new forms of investment. In this sense – continued Zani – it is essential to create the right conditions for the creation of an authentic single capital market at European level and, at the same time, start a process of rationalization of tax incentives in order to support the most resilient companies. Furthermore, it is crucial to implement protections for private operators, ensuring greater transparency in order to encourage the use of savings in the real economy and attract new financing.”
